

Sharan Prabhu VS

UX/UI Designer

+91 9500625898 — sharanprabhu1998@gmail.com — [My Portfolio](#) — [LinkedIn](#)

Summary

UX/UI Designer with 2+ years of experience designing user-centered digital products across SaaS, e-commerce, and learning platforms. Skilled in user research, wireframing, prototyping, usability testing, accessibility, and scalable design systems. Experienced in improving user engagement, conversion, and product discoverability through data-driven design using Figma, Shopify, Microsoft Clarity, and analytics tools. Also experienced in digital marketing strategy, paid advertising, audience targeting, and campaign optimization, combining UX thinking with business and growth objectives to drive measurable impact.

Skills

UX Design: User Research, User Flows, Information Architecture, Wireframing, Prototyping, Usability Testing, Journey Mapping, Accessibility Design.

UI Design: Responsive Web Design, Mobile UI, Visual Design, Design Systems, Component-Based Design, Interaction Design.

Tools: Figma, Adobe XD, Miro, Adobe Illustrator, InVision, Proto.io, Shopify, Microsoft Clarity, Google Analytics, Meta Business Suite.

Technical: HTML, CSS, React Native Basics, JavaScript Basics

Soft Skills: Communication, Collaboration, Critical Thinking, Adaptability, Client Problem-Solving.

Experience

Rama Pure Pvt. Ltd. – Chennai, India

March 2025 – October 2025

UX/UI Designer

- Redesigned Rama Pure's official website to improve visual consistency, accessibility, and usability, increasing user engagement by 20% and improving task completion speed by 15%.
- Led UX/UI design for One India and 4 international e-commerce platforms, creating responsive, user-centered interfaces that contributed to a 12% increase in international sales conversions.
- Improved accessibility through better contrast ratios, keyboard navigation, and screen-reader-friendly design, reducing bounce rate by 25%.
- Restructured product variation hierarchy to improve product discoverability by 30% and reduce checkout friction.
- Used Figma, Shopify, Microsoft Clarity, and analytics insights to identify user behavior patterns and support data-driven design decisions.
- Collaborated with developers, marketing, and product teams to create reusable design components, reducing design-to-development handoff time by 20%.

Designed and Developed User-Friendly Online Learning Management System

Freelance – Leicester, UK

Jan 2023 – June 2024

- Designed an end-to-end Learning Management System (LMS) for 10 modules, improving student engagement and participation by 40%.
- Conducted user research with educators and learners to identify pain points and inform UX decisions.
- Created user flows, information architecture, wireframes, and high-fidelity UI designs using Adobe XD, Miro, and Illustrator.
- Designed accessible, user-friendly interfaces for a platform serving 1,000+ learners, ensuring consistency and usability.
- Collaborated with stakeholders to prioritize features and align design with learning goals.
- Improved usability through clear navigation, structured layouts, and reduced cognitive load, with responsive design across devices.

Indoor Library Navigation App – MSc Project, University of Leicester

Aug 2022 – Jan 2023

- Developed a library app to address challenges faced by international students in finding books efficiently.
- Designed intuitive interfaces and user-friendly layouts using Figma, java-script, boosting engagement by 15% for 150+ users.
- Conducted user research and prototyping, increasing pain-point discovery by 40% and improving overall UX.
- Enhanced navigation and search functionality, achieving a 65% improvement in book discovery.
- Applied consistent branding, responsive design principles, and optimized user journeys using React Native and JavaScript.

AR-Based Indoor Navigation System – Independent Project.

Jan 2021 – Jun 2021

- Designed an AR-based indoor navigation concept to reduce wayfinding challenges in library environments by 30%.
- Built user flows and interactive prototypes using Adobe XD and Miro.
- Improved overall library engagement by 25% through clearer navigation and intuitive interaction patterns.

Education

Master in Human Computer Interaction

2021-2023

University of Leicester

Relevant Coursework: Interaction Design, User Experience, Service Design, Research Methods in HCI

B. Tech Computer Science

2015 –2019

SRM University

Human Computer Interaction, HTML and CSS

Certifications

- Completed a Kaggle course on AI agents.
- Completed a Prompt Engineering Course in LinkedIn.
- Completed a Digital Marketing Course in LinkedIn
